

Hi,

We hope all is well. Presented below is our latest August Durian Projects Newsletter covering key news involving durian and relevant Malaysian news.

This month's newsletter features a celebrated new twist to Musang King, involving caviar in Hong Kong, and reports of significant investments being made into Malaysian durian plantations. Singaporean businesses from fruit stalls to restaurants have started heavily investing into Malaysian plantations, in an effort to secure supplies and capitalise on growing demand. With prices reaching as high as RM 80 per KG this season, sellers are looking to source future supplies as soon as possible.

Durian Projects this month is also pleased to share with you the following updated video of our durian plantation in Johor. The video shows a portion of our plantation and our on-site staff doing their daily maintenance work.

We wish you a pleasant month ahead.

Best Regards,
Durian Projects Group
